# International Human Right Day - Biswa Ranjan

International Human Rights Day is observed on December 10 - annually. The main aim behind celebrating this day is to improve the physical, social, cultural and spiritual well being and welfare of the vulnerable group of people globally. It is an inalienable right which everyone is inherently entitled to as a human being regardless of race, colour, religion, sex,

language, political or other opinions, national or social origin, property, birth or belong from other status. The day the United Nations General Assembly adopted, in 1948, the Universal Declaration of Human Rights (UDHR). The UDHR is a milestone document, which proclaims the inalienable rights that everyone is entitled to as a human being - regardless of race, colour, religion, sex, language, political or other opinion, national or social origin, property, birth or other status. The 75th anniversary of the Universal Declaration of Human Rights will be celebrated on 10 December 2023. Ahead of this milestone, starting on this year's Human Rights Day on 10 December 2022, we will launch a year-long campaign to showcase the Human Rights by focusing on its legacy, relevance and activism. In the decades since the adoption of the Universal Declaration of Human Rights in 1948, human rights have become more recognised and more guaranteed across the globe. It has since served as the foundation for an expanding system of human rights protection that today focuses also on vulnerable groups such as persons with disabilities, indigenous peoples and migrants. However, the promise of the Human Rights of dignity and equality in rights, has been under a sustained assault in recent years. As the world faces challenges new and ongoing – pandemics, conflicts, exploding inequalities, morally bankrupt global financial system, racism, climate change – the values, and rights enshrined in the Human Rights provide guideposts for our collective actions that do not leave anyone behind.
